

1 December, 2015

Reverend Mai Le,

As Christmas approaches, the church centers its focus on God coming to among us in the vulnerability of a child. I think our Annual Report as well as the results from your PT Summer Site show that our collaborative work with churches like yours is a faithful response to God's placing a child and a family at the center of things.

We are pleased to report that your partnership in providing the 2015 Summer Day Camp made transformation a reality for neighborhood children, your local church, and college students! As we work together to build relationships with families in your immediate neighborhood through the After-School Program, we build upon the great results of the summer at your site:

- Number of children you built a relationship with through PT: **131**
- Percentage of children qualified for free and reduced lunch: **80%**
- Provided **5630** Meals and Snacks for Children
- Percentage of Regular Attendees Maintaining or Improving Elementary Reading Level: **89%**
- Percentage who improved one or more levels: **75%**
- Number of books read by elementary students: **1460**
- Average number of books read per elementary student: **11**
- Number of reading volunteers who built relationships through PT: **109**
- Hours spent reading and connecting with children by volunteers: **819**
- Number of young adult AmeriCorps Members you helped discern their God-given purpose: **13**

Your partnership with Project Transformation, with parents, and your community makes a difference in the lives of children in your community. And it all happens through building relationships. We look forward to working with you over the next year to build deeper connections with area families through volunteering, Family Fun Nights, and other connecting events.

Thank you for your partnership in the work of the Gospel!

Rev. Andrew Fiser
Director of Site Church and Community Development

*Thank you
for your commitment
and spiritual growth
that you bring to
Project Transformation!
